HAND SANITIZER GEL

Hands-on Protection

The outbreak of Coronavirus (COVID-19) has reminded the entire world of the significance of good hygiene and given rise to the need of establishing practices to control spread of the deadly disease. The World Health Organization (WHO) maintains that only Alcohol-Based Hand Sanitizers (ABHS) with minimum additives are effective against Coronavirus. In line with these guidelines, NUST has developed **N-Safe** – high-quality sanitizers for microbial control, that adhere to the post-COVID-19 outbreak international guidelines and have been certified for efficacy by some of the most credible laboratories in Pakistan. **N-Safe** reinforces guard against germs, your hands-on protection!
